

Another lovely springtime walk to South Carlton Church from the A57 - nearly 6 miles in total. The ground was very dry and we had to avoid the farmer's irrigation sprayer, but crops seemed to be doing well. We missed the deer and hares, sadly, which some dog walkers had seen, but were enchanted by a family of Canada geese with evermore young goslings which appeared from the reeds of the water course. The field of 'ruddy' or red clover used by farmers for silage or to enrich the soil was stunning in the afternoon sun.
